My Story

- I have learned a lot over the last few years dealing with both WACD and NACD Tribal Committee
 - Grew up in Southern Indiana
 - Natural Resources and Environmental Science Degrees from Purdue
 - Masters in Wildlife Science Degree
 - Moved to WA State in 2000

My Ranch

- I am a partner of a 2,000+ acre ranch that is mostly enrolled into a WRP easement
- I am a little biased, but it is the best WRP site in the world
 - This ranch has likely had Native Americans for around 9,000 years
- Kennewick Man was found just a few miles downriver
- We still have a lot of cooperation with local tribal members to use the ranch

Outreach Activities

Targeted outreach events
Targeted meetings
Direct communication with tribes

Michael,

I would like to thank you on behalf of YST and this office of the Chairman . I extend a special thank you for your gifts, your thoughts and your sincerity it was heartfelt. We look forward to working with the NACD in the future. Pidamiya Wopida Tanka

Other Outreach Activities

 - Talking points
 - Success story template
 - Power Point Slideshow

RPG Tasks

- Conduct activities to advance the delivery of conservation technical assistance to Native American customers.
- Identify and share among states and tribes current successful partnerships between tribes and conservation districts, partner state agencies and others involved in conservation work.

What are YOU Doing?

Do you have an example of successful outreach and partnership between your district and neighboring tribe(s)?

- What did you accomplish together?
- Why is this example important to both the district and tribe?
- What mutual objectives did you have?
- How did you get started?

NACD Tribal Outreach and Partnership RPG

How can the NACD Tribal Outreach and Partnership RPG *help you create partnerships with tribes to put conservation on the ground?*

Being Realistic on our Goals

There can be significant challenges

- We will likely never get all tribes to participate, but we want to work with all of those that have interest.
- It takes time to build trust with some tribes
- You can't just say "I talked to the tribe", there are a lot of tribes and many are sovereign nations
- I have learned the hard way that there is something called "Indian time"
- We don't have to always work together, but let's not work against each other when we have a common goal
- It can be boiled down to communication, an understanding of both sides, a respect of both sides, and again communication
